WORK EXPERIENCE

XPREP
Intern, May 2016-July 2016

I worked as an Developer/Designer intern with XPrep, which is an online mentoring and tutoring platform.

INFORMATION MANAGEMENT GROUP
Hub Coordinator

At Information Management Group, I work with a team of 50 people to maintain the offcial website of Indian Institute of Technology Roorkee and to design and develop web and mobile applications for campus intranet.

GEEK GAZETTE
Designer

At Geek Gazette, I am a designer working with a team of 13 designers. Together we design the official technical magazine of IIT Roorkee which comes out each semester.

PROJECTS

XPREP
Internship, May 2016-July 2016

I worked on two products which aimed to provide a platform for home tutors and students to meet and grow in a collaborative way. I designed the products and developed them using AngularJS framework and basic frontend technologies.

STATUSV2
October 2015-November 2015

This web application shows the status of various applications, urls and services running on IMG servers. This has a clean, responsive and user friendly UI. I used HTML, CSS, Bootstrap, JQuery, Sockets for developing the frontend.

STRIKE
February 2016

Designed and Developed the website for a Mobile app, which gives additional features inside the email apps.

VALENTINE'S APP
February 2016

Designed and added new features to the intranet valentines app inspired from the previously built app. I used AngularJS for the frontend development. This app was used during the valentine's week for recreational purpose.

YAADEIN
March 2016

Designed some new features and developed them for the intranet app using AngularJS. This app works as an online slam book, helping in keeping memories for the graduating students.
