ABOUT ME

I am a sophomore from Indian Institute of Technology, Roorkee who is a dedicated designer and an enthusiastic frontend developer. I am a self motivated person, with a get-shit-done attitude. I love innovative design and love to see the thoughts given behind that design. Coding my own designs, is one of the things I like to do. Being a sportsperson, I have got a great teamspirit.

WORK EXPERIENCE

INFORMATION MANAGEMENT GROUP
Hub Coordinator

At Information Management Group, I work with a team of 50 people to maintain the offcial website of Indian Institute of Technology Roorkee and to design and develop web and mobile applications for campus intranet.

GEEK GAZETTE
Designer

At Geek Gazette, I am a designer working with a team of 13 designers. Together we design the official technical magazine of Indian Institute of Technology Roorkee which comes out each semester.

XPREP
Intern, October 2015-December 2015

I worked as an intern with XPrep, which is an online mentoring and tutoring platform.

PROJECTS

STATUSV2
October 2015-November 2015

This web application shows the status of various applications, urls and services running on IMG servers. This has a clean, responsive and user friendly UI. I used HTML, CSS, Bootstrap, JQuery, Sockets for developing the frontend.

XPREP
Internship, October 2015 - December 2015

Designed the User Flow, User Interface and Visual Design, and developed the frontend of two products of the franchise. First one was to book a session with mentors online, and the second one was tutor listing.

STRIKE
February 2016

Designed and Developed the website for a Mobile app, which gives additional features inside the email apps.

VALENTINE'S APP
February 2016

Designed and added new features to the intranet valentines app inspired from the previously built app. I used AngularJS for the frontend development. This app was used during the valentine's week for recreational purpose.

YAADEIN
March 2016- ongoing

Designed some new features and developed them for the intranet app using AngularJS. This app works as an online slam book, helping in keeping memories for the graduating students.
